

The ABC Bunny Activity Card

Families - To learn about letters and their sounds, children need many opportunities to hear the names of letters. To play this game with your child, cut out one of the pictures on the next page. With your child, look through the book until you find the page on which that picture appears. Then, tell your child, "This is a ___ (*name*). Its name starts with a ___ (*letter's name*)." Together, paste the picture in the proper box on this page. Remember that it takes time for children to learn the alphabet!
