

Changes, Changes Activity Card

Dear Families - Young children are busy learning their colors and shapes. In the book Changes, Changes, blocks are assembled and re-assembled to make new objects that the characters need. To play this game with your child, first the two of you will find the pictured object in the book. When you spot the green cylinder in the object, help your child put a check in the column to show you two have found it.

Object	We Found the Green Cylinder! <i>Make a check or an X in this box</i>
 doorway
