

Charlie Needs A Cloak Activity Card

Dear Families - Young children often wonder how things are made and where they come from. Charlie Needs A Cloak shows children the entire process for making a garment from wool. To play this game with your child, cut out the pictures below. Put the pictures in order, remembering to use terms like "first", "then", and "at the end" as you talk with your child. Next, re-read the book with your child so the two of you can "check" your work. When you are finished, put the pictures in an envelope marked *Charlie Needs A Cloak* so your child can play this game again.
