

Chicka Chicka Boom Boom Activity Card

Dear Families - Learning the letters of the alphabet is an important part of learning to read. Books like Chicka Chicka Boom Boom introduce young children to the lower case letters in a playful way. To play this game with your child, first cut out the coconut tree. Then, cut out the 26 lower case letters from the bottom of this page. Re-read the book with your child, helping to move the letters up the coconut tree just as they do in the book. Remember that we are only introducing the letters. Most young children will not remember all the letter names until they are in kindergarten! Save the letters and the tree in an envelope marked Chicka Chicka Boom Boom so that you can play this game again.
